## DISASTER RECOVERY, HURRICANE HARVEY

Texas

FSG and Stripes have enjoyed a long and mutually beneficial relationship over the years. From new electrical construction, to remodels, to service, FSG has provided a number of services and solutions to the Stripes team.

### CHALLENGE

In the highly competitive convenience market, successful brands must be able to minimize overhead while maximizing quality and service. For Stripes, this meant finding the right partners to help keep their facilities on-line come rain or shine! This need was never greater for Stripes than when Hurricane Harvey made landfall in their primary market area along the Texas Gulf Coast.

### SOLUTION

FSG was able to respond quickly for Stripes by mobilizing generators and manpower to bring all of the affected Stripes locations back on-line. The deep relationship and trust that Stripes had with FSG allowed Stripes to simply make the phone call and trust FSG to do the rest. From main service restoration, to electrical and lighting repairs, to signage repairs, FSG had done it all for Stripes before and was ready to help Stripes recover even before the rain had stopped!

### RESULT

In the end, FSG was able to help bring Stripes stores back on-line ahead of most of the other retailers in the affected areas, thus allowing Stripes to provide critical fuel and supplies to the communities that desperately needed it!
