

PREFABRICATED ASSEMBLIES & MANUFACTURED COMPONENTS

A SUSTAINABLE APPROACH TO COST SAVINGS & RISK REDUCTION FOR PROJECTS LARGE AND SMALL

**Maximizes
Value**

**Saves
Time**

**Reduces
Risk**

**Promotes
Quality**

PREFABRICATED ASSEMBLIES & MANUFACTURED COMPONENTS

- ☑ Electrical Prefab
- ☑ Technology Prefab
- ☑ Controls Assemblies
- ☑ Lighting Assemblies
- ☑ Manufactured Components
- ☑ Welded Components & Repairs
- ☑ Structural & Miscellaneous Steel
- ☑ Fence Projects & Components

THE PROPEL DIFFERENCE

Full Service Design & Engineering Support

From Start to Finish

- Design Assist
- Design Build
 - CAD
 - BIM
- Engineering

UL Certified PreFab & Manufacturing Processes

From Small Projects to Large

- Prefabricated Assemblies
- Manufactured Components
 - Custom Solutions
 - Scalable
 - Safe & Efficient

Dedicated Facility Training & Tools

A Clean, Safe, & Efficient Environment

- Dedicated Fabrication Facility
- Dedicated Laydown Space
- Dedicated Labor Force
- Strategic Vendor Partnerships

Smart Warehousing & Logistics

Flexible Space & Solutions

- Qualified, Offsite Material Lay-down
 - Just In Time Delivery
 - Dedicated Staging
 - Pro-Active Tracking
- 4Q Quality Load Check

Propel's 4Q Quality Control

4Q is Propel's Proprietary Quality Control Program

- Quality Check of Initial Drawings
- Quality Check of Initial Build
- Quality Check Upon Load Out
- Quality Check Upon Delivery

Designed For Growth

A Learning Opportunity

Propel Prefabrication is connected with Propel Career Academy. Students get to work side-by-side with experienced trades professionals on real Propel Prefab projects, gaining real world experience.
