Owner

Premier Volvo

Contract Type

Electrical Construction

Contract Amount

485,980

General Contractor

Miller Stauch

Electrical Contractor

FSG

Engineering Firm

BC Engineering

Architect

Davidson Architecture & Engineering

CHALLENGE

The biggest challenge of this project was maintaining an open car dealership with 1/2 of the lot taken and used as a construction site to implement a brand new facility.

SOLUTION

FSG worked closely with the GC to meet schedule and install utility and pole lighting in stages to accommodate new car lot installation.
