

FSG offers LED Sports Lighting Solutions through your local AEPA CO-OP.

Let FSG design a peak performing lighting solution for your stadium and fields.

Services

- Photometric layouts to ensure the best illumination and fixture count
- Energy Savings -LEDs consume less energy while providing better illumination
- Rebates and Incentives
- Wireless controls that are adaptable and intelligent
- RGB Options to Highlight School Colors
- Video Integration
- Purchasing through the CO-OP allows you to circumvent the bidding process with a nationally bid and state vetted contract

Does Your Stadium & Court Lighting Make The Cut?

Whether you're interested in re-lighting a tennis court, expanding your operations with better lighting, or pioneering a new lighting system in a billion dollar stadium venue, FSG is here for you.

Our teams of designers, managers, technicians, and maintenance experts are standing ready to help you bring the light to your customers and your athletes. Don't let poor lighting stand in the way of giving you the most customer-centric experience in your market.
