Electrical Contractor

FSG

CHALLENGE

FSG was tasked with the challenge of providing a complete electrical installation at this baseball stadium in Corpus Christi, TX. The project was to be fast-tracked and would require all of FSG's skill and experience in the lighting and electrical fields.

SOLUTION

This 7,400-seat stadium, with 19 luxury suites, was slated for all electrical and lighting packages to be installed and operating within a 9 month window. FSG Electric provided all electrical work for the entire park, including concessions, suites, and signage. In addition, FSG performed a complete installation of the Musco Sports Lighting package.
